 Independent Verification & Validation Facility	Work Instruction for Processing Procurements for Research Initiatives	IVV 09-3-4 Revision: Basic Effective Date: September 2003
--	--	--

1.0 Purpose

This work instruction provides the requirements for processing procurements for research initiatives to be managed by the NASA Independent Verification and Validation (IV&V) Facility. This process is intended to be compliant with NASA Procedures and Guidelines (NPG) 5100.4B, Federal Acquisition Regulation Supplement (NASA/FAR Supplement), and NPG 5800.1E, Grants and Cooperative Agreement Handbook.

2.0 Scope

The general requirements within this work instruction apply to the IV&V Facility which performs research in accordance with IVV 09-3, Research Program, when the IV&V Facility is responsible for processing the procurements of research initiatives. These requirements are applicable whenever a proposal for research is selected for award or renewal by the Research Lead or Source Evaluation Board and will be managed by a NASA Civil Servant who is located at the NASA IV&V Facility.

3.0 Definitions and Acronyms

3.1 Research Lead

NASA civil servant with the overall management authority and responsibility for the research program at the IV&V Facility. While not always the selection authority, the Research Lead will keep track of initiatives that need to be awarded or renewed.

3.2 Point Of Contact

NASA civil servant that is responsible for the administrative requirements imposed upon a research project.

3.3 Acronyms

CFR	Code of Federal Regulations
CIM	Center Initiative Management
COTR	Contracting Officer Technical Representative
FAR	Federal Acquisition Regulation

4.0 Flow Chart

Procurement Process for Research Initiatives

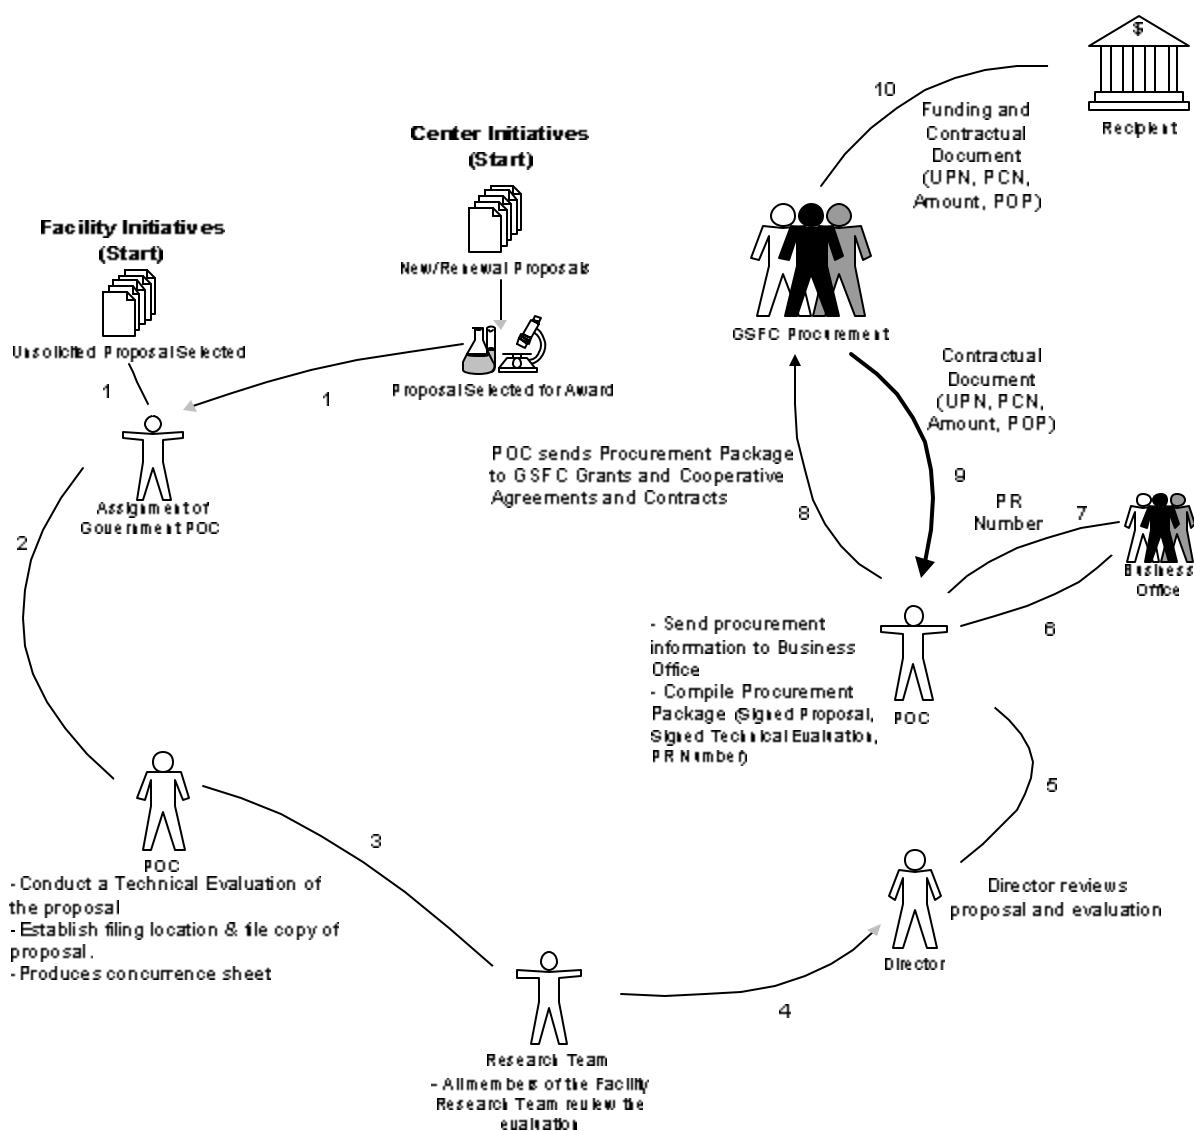

Table 4-1

 Independent Verification & Validation Facility	Work Instruction for Processing Procurements for Research Initiatives	IVV 09-3-4 Revision: Basic Effective Date: September 2003
--	--	--

5.0 Responsibilities

5.1 Director

Shall:

- Review and approve content of all new research initiatives and technical evaluations.
- Retain the option of delegating these responsibilities.

5.2 Research Lead

Shall:

- Decide based on availability of funds, whether awards will be funded as a lump sum or incrementally.
- Coordinate with the Deputy Director and the IV&V Services Lead to assign an IV&V Facility Government Point Of Contact, who will also serve as the Contracting Officer Technical Representative (COTR), and will be responsible for the day to day management of the initiative.
- Formulate the overall research budget and provide it to the Business Office.

5.3 Point Of Contact

Shall:

- Conduct a detailed technical evaluation of the proposal in accordance with NPG 5800.1E.
- Provide the Director of the IV&V Facility with a completed concurrence sheet, detailed technical evaluation, and a signed copy of the proposal.
- Send the IV&V Facility Business Office all information required to create a Procurement Request (PR).
- Forward to the grant office a completed procurement package.
- File proposal, technical evaluation, and award documentation for proposal.

 Independent Verification & Validation Facility	Work Instruction for Processing Procurements for Research Initiatives	IVV 09-3-4 Revision: Basic Effective Date: September 2003
--	--	--

5.4 Business Office

Shall:

- Create and send a PR to the appropriate procurement office at Goddard Space Flight Center (GSFC) via IFMP.
- Provide the POC with a copy of the PR.

6.0 Procedure

6.1 Select Research Proposals

- OSMA SARP Proposals are selected in accordance with IVV 9-3-2.
- IV&V Facility Initiatives are selected in accordance with IVV 9-3-3.

6.2 Assign POC

The Research Lead shall coordinate with the IV&V Facility Deputy Director and IV&V Services Lead to assign a government POC to manage each approved proposal.

6.3 Conduct Technical Evaluation of Proposal

The POC will conduct a detailed technical evaluation of the proposal to be submitted to the appropriate procurement office as set forth in NASA FAR subpart 15.6 and 48 CFR subpart 1815.6. The POC will also create a concurrence sheet for the technical evaluation and then establish a physical file location to store all information relevant to the proposal.

6.4 Top Level Review

The IV&V Facility Director will review the technical evaluation of the research proposal and then make the decision to accept or reject the evaluation. If the Director decides to accept the technical evaluation he/she will sign the evaluation and concurrence sheet and return them to the POC. If the Director decides to reject the technical evaluation, he/she will return them to the POC with comments regarding the decision.

 Independent Verification & Validation Facility	Work Instruction for Processing Procurements for Research Initiatives	IVV 09-3-4 Revision: Basic Effective Date: September 2003
--	--	--

6.5 Compile Procurement Package

- a. The POC will provide the IV&V Facility Business Office with all the necessary information required to create the PR, including:
 - Title of the proposal
 - Name of the Principle Investigator
 - Address of the Principle Investigator's institution
 - Amount of award
 - Source of funding
 - Copy of the signed technical evaluation
- b. The POC will then compile a procurement package consisting of the following:
 - i. New Research Initiative
 - Copy of solicitation cover (Only applies to SARP)
 - Signed copy of submitted proposal
 - Endorsed technical evaluation of the proposal
 - Detailed budget including current year and all proposed out years
 - Copy of the letter notifying PI of selection (Only applies to SARP)
 - Certification for Debarment, Suspension, and other Responsibility Matters signed by the PI
 - Assurance for Non-discrimination Compliance signed by the PI
 - ii. Renewed Research Initiative
 - Memorandum of Continuation for a Multiple Year Award signed by the POC (Applies only to Grants, and is required in order to fund each option year of the grant)
 - Copy of the last quarterly technical report
 - Detailed budget for the proposal (Only applies if the option years funding exceeds amount specified in the proposal by 20%)

 Independent Verification & Validation Facility	Work Instruction for Processing Procurements for Research Initiatives	IVV 09-3-4 Revision: Basic Effective Date: September 2003
--	--	--

6.6 Create Procurement Request

- a. The IV&V Facility Business Office will create a PR and submit it to the appropriate procurement office at GSFC.
- b. The appropriate procurement office will be determined by the nature of the award. If the proposal will be awarded as a grant it will be submitted to the GSFC Grants office, however if the proposal will be awarded as a contract then it will be submitted to the GSFC Contracts office.
- c. Contractual vehicle determination for research initiatives generally follows the rule of thumb that grants are typically awarded only to colleges or universities where as contracts are awarded to organizations.

6.7 File Procurement Package

The POC shall file a copy of the complete procurement package in the physical file designated for each awarded proposal.

6.8 Submit Procurement Package

The POC shall mail the procurement package, including the PR number and all signed originals, to the appropriate GSFC procurement office. In addition, the POC will files a copy of all documents included in the procurement package in the NASA physical file location established for the proposal.

--	--	--

7.0 Metrics

Time elapsed from proposal selection to procurement finalized.

8.0 Records

The following Quality Records shall be generated and managed in accordance with IVV 16, Control of Quality Records, when applicable in accordance with this Work Instruction for the Processing Procurements for New Research Initiatives.

Document Name and Identification Number	User Responsible for Record Retention	Retention Requirement	Location
Research Proposal	Research Lead or POC	Permanent	CIM Tool
Technical Evaluation	POC	Permanent	Project File
Procurement Package	POC	Permanent	Project File
Procurement Request	Business Office and POC	Permanent	Project File
